Why Do I Need This Report?

Apogee draws on decades of experience and the best of modern utility search techniques to bring its clients this fully PAS 128 & HSG 47 compliant utility search. The search often checks in excess of 50 utility companies and underground utility plant owners. The service covers all of the independent operators (IGTs & IDNOs) and telecommunications companies. A fixed fee and a fresh search delivered every time in an unlocked pdf with a useful summary page that identifies the affected and unaffected utilities as well as confirming the list of the utilities searched.
